Position Statement:

My name is Sabrina Nelson-Winters. I served as a professional healthcare provider in Maryland for nearly 21 years before relocating to Florida. I extended myself into the community and left a positive footprint for the people around me.

I was Chief CRNA at the University of Maryland Upper Chesapeake Health Hospital. I provided input to strategic decisions that affected the functional area of responsibility. I worked closely with the University of Maryland Nurse Anesthesia Program in coordinating clinical site hours for SRNAs. Finally, I served on the panel for the University of Maryland Nurse Anesthesia

Program interviewing and deciding the best candidates for the nurse anesthesia program.

I believe that I project personal integrity, fortitude and a natural thirst for community and advocacy involvement. I strive to be excellent at everything I do and will not settle for less. My level of integrity is identified by my sincerity and honesty. I will not bend the truth to satisfy others and I have the courage to stand up for what is right. I support truth and will not let anyone influence otherwise. Lastly, my humility is what continues to keep her grounded. I am equipped with limitless potential to contribute to the overall success and dedication to serve FANA.

My goal is to uphold the responsibilities of FANA Board Members:

- * Establish policy
- * Provide leadership
- * Provide direction through strategic planning
- * Ensure the financial integrity of FANA
- * Stay engaged and represent FANA
- * Be an example to others in and outside of FANA
- * Promote and support FANA

Being engaged with FANA will prepare me to be a better advocate, helping with a solution to the problem. I am eager to be mentored by the best to make a difference for the profession and colleagues. FANA needs diversity. By this, I mean the new student, the mid-career, and the experienced professional to bring forces together to keep us strong and understand what we stand for. My passion for the profession is what will drive me to be the best candidate as Director for my new extended family...FANA.
